

WHY DONATIONS MATTER

1 in 3 households with children in Massachusetts report child-level food insecurity.

Through the GBFB, we can purchase fresh, nutritious food in bulk **at lower prices.**

Clients visits at the MVFP have **increased 109%** since 2022.

41% of the mouths we feed at the MVFP are children.

There are **NO** Mass. state or federal programs to help with the purchase of diapers.

Food insecurity **exacerbates** many chronic medical and mental health conditions.
